Nov. 12, 2003 Meeting
Water-Sewer Rate Increase
Thunder-Fe Unit Owners
AZ CORP COMMISSION
DOCUMENT CONTROL

Dear Sir;

The Arizona -American Water Co. utility bid to boost rates in the Sun Cities is a rate that no community should have to face. This increase of \$11.58 per unit is a .48% increase. This requested increase is unconscionable and even administered in two doses of 24% over two years is not reasonable. As consumers we have not experienced rate reductions once the rates have been approved.

To justify their request the Arizona- American Water Co , Mr. Jones has told you that they have made mandated environmental changes . Those considerations were an important part of the purchasing negotiations when the company was bought from Citizens Water Resource recently. Those projected expenses and now actual cost should be slowly absorbed by the company and not dumped on the consumer.

We request that the commission disallow that much of an increase and request that Arizona-American Water present a scheduled program that shows when the debt is paid off and that a new rate reflect that savings to the consumers.
